COMPLEMENTARY CLINIC

In-Home Comfort Care Program

CMCC supports you
by sending practitioners to your
home or hospital when you are
no longer able to travel to the clinic
for your treatments and services.

510/601-7660

What Is CMCC's In-Home Comfort Care Program?

The In-Home Comfort Care Program provides massage, energy work, therapeutic imagery, acupuncture, and support services to CMCC clients who are no longer able to travel to the clinic for services. The type of services depend on the availability of different volunteer practitioners.

How Do I Know If I Am Eligible?

1. You must be a CMCC client with a Stage 4 diagnosis and no longer able to come to the clinic.

or
2. You must be a CMCC client with a terminal diagnosis or a formal Hospice diagnosis and unable to leave your house.

Where Will CMCC Practitioners Visit and Treat Me?

CMCC will send practitioners to wherever you are: at home, the hospital, a convalescent facility, or a hospice center.

How Often Will I Receive In-Home Comfort Care Services?

You will be eligible to receive one treatment session every week, lasting approximately one hour.

The CMCC practitioners responsible for your services will be assigned to you in teams of 2–3 women. You will see one practitioner from your team each week.

CMCC will provide type of service based on practitioner availability

How Do I Begin In-Home Comfort Care Services?

First you will speak with CMCC's Social Worker. She will help you decide if it is the right time for you to take advantage of the In-Home Comfort Care Program (IHCC).

One of our In-Home Comfort Care Team practitioners will come to your home to provide CMCC's services

You will then receive a call from CMCC's IHCC Program Coordinator. She will set up an in-home interview appointment and visit you in your home to discuss your needs. She will also let you know what types of services are currently available.

Once you have a practitioner team assigned, you will make appointments directly with your practitioners. Each practitioner will call you just before your appointment to be sure it is still a good time for you to see her.

The In-Home Comfort Care Team respects your dignity and independence when making difficult decisions about your health care. Our goal is to allow you to continue to utilize the services provided by CMCC, even when you can no longer come to the clinic location.

Depending on volunteer availability, we can arrange for you to be cared for in your own home. We recognize that this can be a time of confusion and anxiety. We will do our best to offer sensitive and compassionate emotional support to you and your caregivers, family, and friends.

“The most precious gift we can offer others is our presence. Touching deeply is an important practice. We touch with our hands, our eyes, our ears, and also with our mindfulness.”

Thich Nhat Hanh

CMCC will send practitioners to wherever you are
